All About Ancient Greece

Dig through Ancient Greece and learn what it means to be an archaeologist in Greece by grid mapping and analyzing artifacts from what would have been in ancient burial tombs. Learn basic Greek phrases and greetings, and how to say numbers in Greek. At the end of the week, design your own piece of Greek pottery to take home.

Campers will also have the opportunity to view our Aegean exhibition and use microscopes. They will have the freedom to analyze, synthesize, and touch geologic artifacts dating back 240 million years!

At the end of the week, campers will enjoy a Greek picnic and celebration on the National Hellenic Museum's beautiful rooftop, which offers stunning views of the Chicago skyline.
